Vander Haag's, Inc.
The Leader in Quality Recycled Truck Parts
Providing Quality Truck Parts Used - Rebuilt - New for 80 years!
We specialize in SALVAGE!
Quality recycled parts available @ vanderhaags.com
**President’s Message**

Wow has the year flown by, how could it be fall already?! In celebration of our 80 Year Anniversary, in the previous flyer I outlined the 1st 40 years of our company history. It is hard to know what stories to tell from the past 40 Years! I would have been around 10 years old and starting to “work” in the business during the summer. Some of my first jobs included spraying weeds and pulling radiators, wiper motors and batteries from the old cars in the ‘back 20.’

In 1979, we added 16,000 sq. ft. to our Spencer facility to expand our dismantling, truck repair & body shop departments.

This was the beginning of our involvement with big trucks, even if they were mainly straight trucks and single axle tractors. We began to offer mechanical repairs and truck equipment installation along with our new bodyshop.

In 1982, we made a HUGE decision & installed our first computerized inventory system. We went with a company called Autoinfo, which came preloaded with the Mitchell interchange. I spent part of my summer break entering parts into the computer from our old paper filing system. This refrigerator-sized main frame is on display in our museum.

Providentially this expansion couldn’t have come at a better time as the farm crisis was deeply impacting business in Spencer. It was around this time that the decision was made to offer only pickup and truck salvage, moving our business focus away from car parts.

During an association meeting in the summer of 1984, my dad met some guys from Des Moines who had many questions about the truck salvage business, and before you know it, the conversation had shifted and and we were the new owner of our second salvage yard in Iowa!

Throughout these 80 years, we have been blessed with faithful and hardworking employees & loyal customers. We thank you all for helping to make Vander Haag’s what it is today, the Leader in Quality Recycled Truck Parts!

John M. Vander Haag
**We receive new inventory**

**We Buy**

*Truck Salvage & Used Trucks & Trailers for Resale*

---

**Vander Haag’s, Inc.**

*The Leader in Quality Recycled Truck Parts*

---

**We treat every engine with Tender Loving Care!**

---

**RUN TESTED!**

Every engine is run up to operating temperature and monitored for leaks, smoke, reservoir pressure and injector performance. Every used engine has documented oil pressure, blowby, HP, ECM hours & mileage and exhaust temperatures.

---

**FULLY INSPECTED!**

Every used engine is visually inspected: front to back, top to bottom, internally & externally. The valve cover is then removed to inspect rollers, cams, jakes, valve springs, wiring and other top end components. Every engine is rotated 180 degrees to inspect the crank, cylinder walls, oil coolers and all other bottom end components. All bearings are inspected & replaced as needed.

---

**SHIPPED WITH CARE!**

Our engines are shipped on a steel stand to prevent tipping & mishandling. Your core return can be positioned in the stand for quick & easy return.

VANDER HAAG’S
Your #1 Choice for Salvage Parts!
Every used transmission goes through a rigorous inspection process, ensuring a quality part for you!

INTERNAL INSPECTION!

Every Vander Haag's used transmission undergoes a thorough internal inspection prior to being shipped. Each inspection includes:
- input shaft & bearings
- drive & overdrive sets
- auxiliary synchronizer
- all sliding clutches
- output shaft & yoke
- shift top & rail fork
- main-shaft thrust washers

Each step of our inspection process is documented and photographed. This information is then “attached” to it’s specific transmission record enabling you to log on to www.vanderhaags.com and easily view this history before your purchase.

TOP COVER INSPECTION!

All transmission top covers are visually inspected for abnormalities such as wear on the shift forks and worn pins.

AIR CONTROL INSPECTION!

Each air operated transmission that we sell has the air control system tested to ensure that it will shift properly and operate as intended.

Be ready for this winter’s ice and snow!
Stop in TODAY and pick up your SaltDogg Spreader!

DumperDogg transforms your 3/4 ton or larger pickup into a dump truck, saving you time, effort & cost when unloading heavy or bulky material!

- Double pivoting & removable tailgate lets you load and access the truck bed with ease.
- Completely clears truck bed of material with a maximum of 45 degrees dump angle.
- Corrosion-resistant powder-coated steel frame and insert.
- Included body-up indicator kit alerts you when the DumperDogg is raised.
- Pair with the SaltDogg Tailgate Replacement Spreader to turn your truck into a salt spreader during winter.
- Versatile design lets you continue to use your truck for normal transporting.
- Backed with a 2 Year Warranty!

Available in 6’ & 8’ Stainless or Steel and Poly 8’

- 8’ Stainless Steel spreader complete with top screens, inverted vee
- 10 ½ hp Briggs & Stratton engine
- Electric start, in cab controls, battery
- Approximate capacity 2 cu. yd.
- Approximate weight 750 lbs, standard chute

Buy it NOW at www.vanderhaags.com ~ Shipping Nationwide & Beyond!
Drop Deck & Dozer Trailer Specs

**Standard Equipment**
- 102” wide decks.
- 5’ beavertail with 2 folding ramps.
- Spring assist for ramps
- New 25,000# axles, 16.5” x 7” brakes, outboard drums, hub-piloted.
- Spring suspension (3 leaf springs).
- Dual certified high strength wide flange frames.
- 5” high tensile junior I-beam cross members on upper and lower decks
- 1 1/4” rough oak flooring.
- New 255/70R22.5 radial tires.
- Anti-lock brake system (Rockwell Wabco).
- 2-speed/50,000# landing wheels.
- Sealed wiring system -- all required ICC lights and reflectors.
- Stake pockets on 24” centers with 3/8” x 2” rub rails.
In 1911, the folks in Elba, Alabama set out to build the most durable trailers on the market. Today, Dorsey’s vision remains the same.

Our commitment to quality delivers a hauler which proves that tough is a full time job!

53’ Detach

Aluminum Grain Bodies

Plus Hopper Bottom Trailers & Pups
If you use your truck for a truck, then you'll appreciate all the standard features on a Bradford Built truck bed. Things like 1/8” thick tread plate floor, a 30,000 lb. rated gooseneck hitch and the incredibly strong receiver type bumper hitch. With the 4” tall flip-up side rails, you won’t be back tracking, looking for your chains or spare tire. Chain "keyholes" in the headache rack, flush-mounted D-rings in the side rails and stake pockets in the deck make it easy to secure any load. The sealed beam lights are flush mounted and there is a 7-pole plug-in for your trailer. The rear corners of the deck are tapered so backing up a little too close to the dock won’t take out the lights. The forward taper allows for locating the gooseneck ball further forward while still clearing your trailer gussets in a turn. The powder coat paint gives it an attractive, durable and easy-to-wash surface.
Scott Hoists can be utilized in many different ways to accommodate all your hoisting needs!

LL2000  $4,358.00  LL3000  $5,138.00

Tafco took the frameless grain trailer design a step further when they designed the revolutionary Scott Grain Body which replaced the old wood stake and slat bodies of yesteryear. This design offers light weight and high strength.

Many Sizes & Body Types to Choose From! Call Today!
MARK FOUR - Contractor Dump Body
A contractor’s best friend. Need versatility? This is it. Optional split drop-sides let you decide what to unload where. Add optional steel side board and you’ll increase load capacity nearly 100%.

MARK THREE - Utility Dump Body
A “every day” sized dump truck with the ruggedness of its bigger relatives. Clean unibody design with one-piece floor. Easy to install, optional steel side boards accommodate larger loads.

MARK E - Single Axle Dump Body
This single-axle unibody dump body proves that lightweight and rugged go together. There’s not a tougher utility body anywhere. It comes in lengths ranging from 10’ - 12’ with side heights of 24” or 30”.

MARK E - Tandem Axle Dump Body
The Henderson Engineering Team pulled out all the stops this time to design a dump body that would allow each customer to fully customize and make his body his very own.

MAGNUM - Rock & Demolition Body
The Magnum is available in 12’ to 19’ lengths, it is designed heavy for demolition, but is also offered in light weight steels like the 3mm AR500 for general hauling. It’s elliptical design is virtually self-cleaning and the 5” formed long sills provide for a low mounting height and a lower center of gravity.

Dump Bodies

MARK E

Hook Lift Hoist Systems

Buy it NOW at www.vanderhaags.com ~ Shipping Nationwide & Beyond!
From light duty to extra heavy duty applications, you will find a Bibeau dump body to meet all your needs & expectations.

The standard construction of all Bibeau dump bodies includes: unibody construction using top quality materials, continuous welds throughout, integrated conduit for heating, a door latching or cartridge system ready for pneumatic hook-up, shot blasted and primed with a highly resistant industrial primer, etc..

RKI cranes are used by the nation’s premier fleets. With lift capacity ranging from 2,000 to 6,400 pounds, one of our cranes is ideally suited to your most demanding requirements.

Our steel truck boxes are crafted from 14-gauge (minimum) steel with stainless steel hinges and full-size stainless steel paddle latches, and come with a tough polyester powder coat finish available in black or white. RKI aluminum truck boxes use bright-diamond treadplate aluminum and have sealed gas shock lid supports. These are also available in black or white powder coat.

**LIFETIME WARRANTY**

Custom Hay Racks
Starting at $925.00 for a 48’ Trailer
Includes 48 arms, but no pipe, for easy shipping

Drop-Center Axle: 6" or 9"

Labor to install starting at $1300.00
*Prices do not include wheels or tires
The Next Generation of Power
Featuring “One Touch” Technology

The Thunder Power Tarp System has been rigorously tested, and has proven to be the most reliable system on the market. Thunderstone’s tarp system is fast, easy to operate and exceeds customer’s expectations. The tarp system is also backed by one of the best warranties in the industry, with parts and service just moments away.

QUALITY PRODUCT THAT IS BUILT TO LAST
SRT-2® Spool Roll Tarp has been tested across North America in extreme climates and windy conditions. Our tarp has been trusted by the agricultural industry for nearly three decades and guaranteed to be free of defects in workmanship.

Take control of your tarp
UPGRADE TO ELECTRIC!

• Worm gears create an instant, positive lock with no backing off for a tighter fitting, longer lasting tarp.
• Rotating and telescoping motor mount reduces stress on the system, no mid joint to fail.
• Low profile, compact design allows for better clearance under loading systems and doors.

Vander Haag’s, Inc.
is your Grain Train Expert!

In Stock!

Single, Tandem & Triple Axle Dollies Available
Haul 1600 Bushels Instead of 1000 Bushels in 1 trip!
