**President’s Message**

What an exciting year 2019 is going to be as we celebrate our 80th year in business and reflect back over everything that has helped to shape us into the company we are today. I hope you enjoy the issues of our flyer this year as we share some old pictures and uncover some old stories.

My grandfather (2nd from the left), John C. Vander Haag Sr., immigrated from the Netherlands to America in the spring of 1921 at the age of 18. In the fall of 1939, he began collecting and selling scrap iron and various items from farmers around the country side.

The name of this new business was South Side Junkyard.

By the age of 15, my father, John C. Vander Haag Jr., began working full time in the business, which was located on the south side of Sanborn Iowa.

Over the next 20 years my dad worked in the business, served our country in Korea, and changed our business from being a junkyard to a late model automotive salvage yard. As part of this progression, the name of the business was changed to South Side Salvage.

---

**Quick Find Contents Guide**

4  Salvage Components
   A small sampling of recent units being parted out.

8  Engines & Component Parts
   Engines, exhaust, cylinder heads, DPF, overhaul kits, injectors & more.

13 Driveline Parts
    Transmissions, rearends & more.

15 New Parts & Accessories
    Fenders, seats, mirrors, tool boxes, brake components & more.

25 Crash Parts & Cargo Control
    Cabs, hoods, doors, fuel tanks, bumpers, grille guards & more.

30 Construction Equipment
    Parts, attachments & whole units 4sale.

34 Quality Used Trucks
    Tandem & single axle, dump, grain, flatbed, & specialty.

39 New & Quality Used Trailers
    Grain, gondola, drop deck, side dump, end dump, tanker & more.

44 New Truck Equipment
    Grain bodies, truck beds, hoists, tarps, dump bodies, tag axles & more.

51 Used Truck Equipment
    A small sampling of used components from grain bodies to APU.

54 Repair Shop & Services
    We’re your one-stop shop!

56 Employee Feature & Hiring Info
    Meet a few of our valued employees & learn how to join our winning team!

57 Partners Worldwide
    Join us in supporting this great humanitarian effort!

58 Yesterday’s Memories & Vander Haag’s Truck Museum
    If you’re traveling through northwest Iowa, visit our museum filled with vintage trucks and unique memorabilia.

**Prices in this flyer are subject to change without notice**
As the business continued to grow, it became apparent that it was time to look for a new home. A 20-acre plot was located on the north side of Spencer Iowa, with an option to buy 20 more acres at a later time.

Since our name didn’t reflect our location in this new town, the decision was made to change our name to Vander Haag’s Inc. on August 9, 1971.

We commissioned the first tilt bed in the salvage industry. If you visit our Yesterday’s Memories & Truck Museum in Sanborn, IA, you can check out our restored replica 1956 Chevy tilt bed on display. (See pages 58-59 for more info on our museum.)

After the tilt bed and a couple new buildings were added across the street from the family house, my dad recalls his mother saying “That is far enough with that JUNK!” They had to make sure they didn’t put car parts on her side of the line!

Note on business card – the phone # 268 is still used today in Sanborn at the truck museum as 729-3268!

Another first in the salvage industry was created when my dad noticed all of the new wood racking getting dirty with the “clean” parts. After much research, a parts washer was designed and built to our specs and given serial number ONE! It is large enough to wash an entire gasoline engine. We still use the Storm Vulcan washers today.

Check out the photo of me “working” on some salvage in September 1971, and of Lynn Feddersen from 1977. Lynn began working at Vander Haag’s on January 2, 1973, and is still helping today!

I look forward to sharing more of our story in future flyers. The second 40 years have been as exciting as the first 40! John M. Vander Haag
We receive new inventory

We Buy

Truck Salvage & Used Trucks & Trailers for Resale

Vander Haag's, Inc.
The Leader in Quality Recycled Truck Parts

We treat every engine with Tender Loving Care!

RUN TESTED!
Every engine is run up to operating temperature and monitored for leaks, smoke, reservoir pressure and injector performance. Every used engine has documented oil pressure, blowby, HP, ECM hours & mileage and exhaust temperatures.

FULLY INSPECTED!
Every used engine is visually inspected: front to back, top to bottom, internally and externally. The valve cover is then removed to inspect rollers, cams, jakes, valve springs, wiring and other top end components. Every engine is rotated 180 degrees to inspect the crank, cylinder walls, oil coolers and all other bottom end components. All bearings are inspected & replaced as needed.

SHIPPED WITH CARE!
Our engines are shipped on a steel stand to prevent tipping & mishandling. Your core return can be positioned in the stand for quick & easy return.

**Vander Haag’s, Inc.**

The Leader in Quality Recycled Truck Parts
Every used transmission goes through a rigorous inspection process, ensuring a quality part for you!

INTERNAL INSPECTION!

Every Vander Haag’s used transmission undergoes a thorough internal inspection prior to being shipped. Each inspection includes:
- input shaft & bearings
- drive & overdrive sets
- auxiliary synchronizer
- all sliding clutches
- output shaft & yoke
- shift top & rail fork
- main-shaft thrust washers

AIR CONTROL INSPECTION!

Each air operated transmission that we sell has the air control system tested to ensure that it will shift properly and operate as intended.

TOP COVER INSPECTION!

All transmission top covers are visually inspected for abnormalities such as wear on the shift forks and worn pins.

Each step of our inspection process is documented and photographed. This information is then “attached” to it’s specific transmission record enabling you to log on to www.vanderhaags.com and easily view this history before your purchase.

CALL TODAY!!!
Vander Haag’s is now your Warranty Dealer!

Ask your sales professional about available options for Transportation & Finance Quotes (Includes term loans & long term leases!)

At Vander Haag’s, Inc. SAFETY is a PRIORITY.

We understand how important it is to keep your School Bus operating safely and efficiently to keep your children and drivers protected. Our experts are trained to help you pass school bus inspections and perform regular service, repair & maintenance.

We have the latest technology to help diagnose problems efficiently. This allows us to find possible areas of concern that others may have missed.

We are here to help you keep your students & drivers SAFE!

STOP

Inspection Violations!

Pass inspections by avoiding common violations.

This is just a sample of the common violations found during state inspections. We’ll check for these & many more during our detailed inspection process!

Whether your bus needs a few simple adjustments to get back on the road, or major work such as a complete engine & tranny overhaul, you can count on our professional service experts to do it all!

Our Spencer facility is equipped with a full service body shop & 55’ paint booth, allowing us to handle any project!

* Painting
* Body Repair
* Regular Maintenance
* Alignments
* Major Overhauls

We can handle it all, BIG or Small!
Looking for more than scrap value for your retired equipment?

We are now your ASV Equipment & Parts Dealer!
At Engine Rebuilders, we understand that minimizing equipment downtime is a key component in business success. This is why we carry the largest inventory of remanufactured compact equipment engines in the industry. Whether a skid steer, excavator, or compact track loader, Engine Rebuilders helps you maximize your uptime so the job can get done on time.

**Our Guarantee:**
Engine Rebuilders warrants, to the original buyer, that each remanufactured engine will be free from proven defects in material and workmanship for a period of 1 Year/2,000 Hours after installation.

Aluminum Grain Bodies

Plus Hopper Bottom Trailers & Pups
If you use your truck for a truck, then you'll appreciate all the standard features on a Bradford Built truck bed. Things like 1/8" thick tread plate floor, a 30,000 lb. rated gooseneck hitch and the incredibly strong receiver type bumper hitch. With the 4” tall flip-up side rails, you won’t be back tracking, looking for your chains or spare tire. Chain "keyholes" in the headache rack, flush-mounted D-rings in the side rails and stake pockets in the deck make it easy to secure any load. The sealed beam lights are flush mounted and there is a 7-pole plug-in for your trailer. The rear corners of the deck are tapered so backing up a little too close to the dock won’t take out the lights. The forward taper allows for locating the gooseneck ball further forward while still clearing your trailer gussets in a turn. The powder coat paint gives it an attractive, durable and easy-to-wash surface.
Tafco took the frameless grain trailer design a step further when they designed the revolutionary Scott Grain Body which replaced the old wood stake and slat bodies of yesteryear. This design offers light weight and high strength.

Scott Hoists can be utilized in many different ways to accommodate all your hoisting needs!

LL2000 $4,358.00    LL3000 $5,138.00

Many Sizes & Body Types to Choose From!

Call Today!
MARK FOUR
- Contractor Dump Body
A contractor’s best friend. Need versatility? This is it. Optional split drop-sides let you decide what to unload where. Add optional steel side board and you’ll increase load capacity nearly 100%.

MARK THREE
- Utility Dump Body
A “every day” sized dump truck with the ruggedness of its bigger relatives. Clean unibody design with one-piece floor. Easy to install, optional steel side boards accommodate larger loads.

MARK E
- Single Axle Dump Body
This single-axle unibody dump body proves that lightweight and rugged go together. There’s not a tougher utility body anywhere. It comes in lengths ranging from 10’ - 12’ with side heights of 24” or 30”.

MARK E
- Tandem Axle Dump Body
The Henderson Engineering Team pulled out all the stops this time to design a dump body that would allow each customer to fully customize and make his body his very own.

Hook Lift Hoist Systems
From light duty to extra heavy duty applications, you will find a Bibeau dump body to meet all your needs & expectations.

The standard construction of all Bibeau dump bodies includes: unibody construction using top quality materials, continuous welds throughout, integrated conduit for heating, a door latching or cartridge system ready for pneumatic hook-up, shot blasted and primed with a highly resistant industrial primer, etc..

RKI cranes are used by the nation’s premier fleets. With lift capacity ranging from 2,000 to 6,400 pounds, one of our cranes is ideally suited to your most demanding requirements.

Our steel truck boxes are crafted from 14-gauge (minimum) steel with stainless steel hinges and full-size stainless steel paddle latches, and come with a tough polyester powder coat finish available in black or white. RKI aluminum truck boxes use bright-diamond treadplate aluminum and have sealed gas shock lid supports. These are also available in black or white powder coat.

**LIFETIME WARRANTY**

Custom Hay Racks
Starting at $925.00 for a 48’ Trailer
Includes 48 arms, but no pipe, for easy shipping

*Prices do not include wheels or tires
The Thunder Power Tarp System has been rigorously tested, and has proven to be the most reliable system on the market. Thunderstone’s tarp system is fast, easy to operate and exceeds customer’s expectations. The tarp system is also backed by one of the best warranties in the industry, with parts and service just moments away.

UPGRADE TO ELECTRIC!

- Worm gears create an instant, positive lock with no backing off for a tighter fitting, longer lasting tarp.
- Rotating and telescoping motor mount reduces stress on the system, no mid joint to fail.
- Low profile, compact design allows for better clearance under loading systems and doors.

QUALITY PRODUCT THAT IS BUILT TO LAST

SRT-2® Spool Roll Tarp has been tested across North America in extreme climates and windy conditions. Our tarp has been trusted by the agricultural industry for nearly three decades and guaranteed to be free of defects in workmanship.

RECYCLE!
