GRAIN HOPPER TRAILER

DESIGNED, ENGINEERED & BUILT FOR TODAY'S LOADS

Jet Company has introduced a new **ALUMINUM** Grain Hopper Trailer to its product lineup. This aluminum grain hopper trailer has been designed, engineered, and built for today's loads. Jet's aluminum trailer now features a Double-Wall

Smooth Side design minimizing rivets, exterior ribs, and corrugations in the sidewall to form a sleek and aerodynamic design. Engineered for both Farm and Highway usage Jet Company's Aluminum Grain Trailer is light weight and stronger than ever.

Jet Company has incorporated many standard features to this design that add value and make the job easier for the end user. Many lengths and side wall heights are available to fit all operations and hauling requirements.

POWDER COAT PAINT

Powder coat paint provides a high gloss & long lasting durable finish. More resistant to chipping, scratching, fading & wear.

DOUBLE-WALL SIDES

Smooth side and aerodynamic side-wall design.

ELECTRIC ROLL TARP

Roll tarp supported by aluminum tarp bows. (optional colors available)

LANDING GEAR

Low maintenance two-speed landing gear, featuring no lube technology.

HIGH CLEARANCE DOOR CRANK

High clearance door crank, designed to minimize straining/bending when opening the door.

PATENTED HOPPER DOOR

Patented hopper door with self cleaning rollers. The easiest opening door in the Industry. The only hopper door that uses the weight of the load being transported to help open the door.

ALUMINUM LADDERS

Aluminum ladders on front and rear of trailer. Rear flip-down ladder for easy transition from ground to trailer.

LED LIGHTS

LED lights and sealed wire harness.
