KING PIN SETS

Proven Performance Mile After Mile

TRUEFIT PLUS™

Performance Proven Mile After Mile

Dayton Parts TRUEFIT PLUS™ line of “no ream” king pin kits combine the fitment of a reamed king pin installation with the benefit of reduced installation downtime. All kits include bi-metal bronze bushings that are engineered as a perfect match to the king pin - taking the guesswork out of properly reaming your matched components. **TRUEFIT PLUS™** king pin kits *result in a proper fit every time.*

Better Quality Equals Less Downtime

The **TRUEFIT PLUS™** line of king pins offers ease of installation and pre-sized bi-metal bushings, which have been performance proven, mile after mile, by North American vehicles. The **TRUEFIT PLUS™** line of king pins offer the most economically matched fit between king pin and bushing, without the added cost of reaming. You can depend on **Dayton Parts TRUEFIT PLUS™** line of “no-ream” king pins to get you back on the road quickly, saving you both time and money.

Series of No Ream King Pin Sets

- ✓ Featuring matched king pins and bi-metal bushings (improved fit)
- ✓ Quick installation time compared to traditional “ream required” king pins
- ✓ Performance matching that of a reamed king pin set
- ✓ Lower overall cost associated with installation

TRUEFIT PLUS™
